*African Religions A Very Short Introduction*

Abstract. African American Religion: A Very Short Introduction explores the history and circumstances of African American religion through three examples: conjure, African American Christianity, and African American Islam. It argues that the phrase "African American religion" is meaningful only insofar as it describes how through religion, African Americans have responded to oppressive conditions.

African History is not a short history of Africa, which is just as well as there are over 50 countries on the continent and only 149 pages of text in the book. Instead, this book sets out to provide an insight into how the history of Africa was perceived in the pre-Colonial and Colonial past and how histories of Africa became of interest and how they are now being written.
