The EN ISO 14122-3 standard requires a minimum height of 1.10 m for the railings and the handrail must have a diameter between 25 and 50 mm. It is also stated that any point on the handrail and any barriers or obstacles, there must be a free space of 100 mm. The

File Type PDF

Bs En Iso 14122

edges of the handrail shall not have sharp ends, in order to prevent the risk of cutting or clothes getting entangled.
