In certain theories of linguistics, thematic relations, also known as semantic roles, are the various roles that a noun phrase may play with respect to the action or state described by a governing verb, commonly the sentence's main verb. For example, in the sentence "Susan ate an apple", Susan is the doer of the eating, so she is an agent; the apple is the item that is eaten, so it is a patient. While most modern linguistic theories make reference to such relations in one form or another, the ge

agent; cause; instrument; experiencer; recipient; location; path; goal; measure; theme. Agents are arguments that bring about a state of affairs. The line between agents, on the one hand, and causes or instruments, on the other, can be fuzzy, but agents are (or are perceived to be) conscious or sentient, in a way that causes or instruments aren't. Some examples are given in (1)-(3).
