SUNDAY TIMES BESTSELLER Some people are born to be a certain thing. And I was a born fighter. At the age of eight, Michael Bisping began his training in martial arts. By the time he was 15, he was fighting in his first no holds barred competition. When he turned professional and joined the UFC he was sure about one thing: only a world championship title would do. A British underdog in the greatest fighting championship on earth, he spent the next decade winning some of the championship's most sensational contests to achieve his dream, becoming the first ever British UFC world champion in 2016. From his boyhood years learning to fight in the gyms of Lancashire to his most shocking clashes in the cage, in Quitters Never Win Bisping tells the raw and unfiltered story behind his legendary career for the first time, including his greatest wins, his fiercest rivals and the harrowing injury that forced him into retirement. As audacious, entertaining and as candid as the man himself, it's a backstage pass to one of the world's most extreme sports and an unbridled account of what it really takes to become a champion, from sleeping in his own car to reaching the summit of the world's fastest growing sport.

Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGrengor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me.

Based on the Speech Plasma Method, this book for beginners has proved to be ideal for students of Hungarian who would like to start to speak the language fluently at a very early stage. The volume consists of five sections dealing with basic Hungarian grammar structures that correspond to be, can, have, there is and other basic Present Simple patterns in English. Each section contains 5-6 fluency practice drills and 250 sample sentences on fifty topics. The book is aimed at the development of the learner's fluency in speech through fluency practice drills. The drills are similar to physical exercises that can be practised regularly, repeated over and over again, concentrating either on their intensity and force or on rapidness and speed. Fluency training on the above mentioned grammar structures make the students of Hungarian start speaking the language fluently from the very first steps. The better you know the drills, the easier it will be for you to remember and use the sample sentences on 50 Topics. Fluency practice drills will be like oral cribs" to help you make up a new sentence based on the same grammar pattern. The sentences are very simple and for easy reference the English text is printed alongside."
